About us

As a core member of Jinma Industrial Group, Jenmour Steel® has been dedicated to the field of steel structures since its establishment. Relying on the profound historical accumulation and strong brand influence of the group company, it has expanded its business scope to the production of formwork, scaffolding, outdoor elevators, and the installation of mechanical and electrical engineering, thus building a three-dimensional industrial layout covering multiple categories and the entire process.

In the service chain, Jenmour Steel® has achieved full-cycle coverage from OEM/ODM contract manufacturing, scheme design, to production and sales, as well as construction and installation. With the series of international certifications including ISO 9001-14001-45001, multiple industry patents, professional construction qualifications, and authoritative endorsements from the China Steel Structure Association and the China Formwork and Scaffolding Association, its quality and strength are highly recognized.

Relying on the integrated and optimized high-quality resources in the industry, Jenmour Steel® has acquired the full-process processing capabilities including casting, forging, machining, and heat treatment. It can provide safe, efficient and reliable high-quality products for various fields such as transportation infrastructure, bridge engineering, port construction, and commercial real estate.

Facility and equipment

Scaffolding system

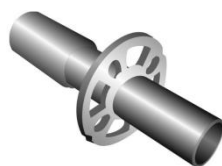

Ringlock scaffolding

Horizontal ledger
Φ48.3*3.2mm

Size (mm)	Weight (kg)
390	2.23
732	3.42
1088	4.68
1572	6.41
2572	9.97
3072	11.75

Connector
T=0.8mm

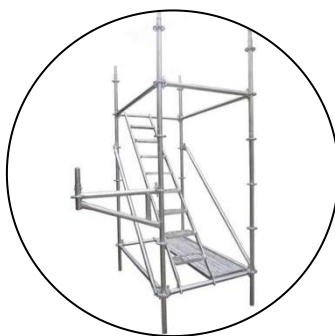

Vertical standard
Φ48.3*3.2mm

Size (mm)	Weight (kg)
500	3.19
1000	5.66
1500	8.07
2000	10.45
3000	15.29
4000	20.11

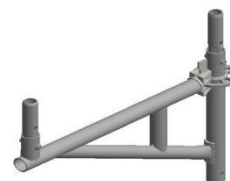

Diagonal brace
Φ48.3*3.2mm

Size (mm)	Weight (kg)
2081	7.9
2207	8.4
2451	9.3
2770	10.5
3137	11.8
3537	13.4

Side bracket
Φ48.3*3.2mm

Size (mm)	Weight (kg)
2081	7.9
2207	8.4

Scaffolding system

Cuplock scaffolding

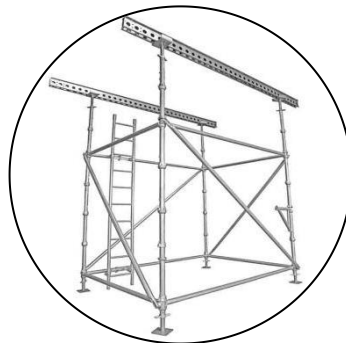

Horizontal ledger
Φ48.3*3.2mm
